

One trial, then the full session

Single-interval Yes/No task · Main-trial sequence (diagram not to scale)

“Did you hear a recurring sound pattern in the background?”

PRACTICE 16 trials · Both durations, synchronous only · With feedback

MAIN 140 trials · 7 conditions × (10 Yes stimuli + 10 No stimuli) · Randomized

BREAKS After trials 40, 80 and 120 · Continue when ready

*Current runner advances after the response and stimulus preparation; it does not apply the configured ITI sleep.
